

# Work Requirement

Simple ways your facility can help keep AR Works recipients covered

June 1, 2018, some Arkansans who receive their healthcare coverage through the Medicaid program known as AR Works must report work, volunteer, or education activities to continue receiving their benefits.

You can assist in this process by making some or all of these resources available at your facility.

Provide dedicated computers or kiosks where people can visit [access.arkansas.gov](http://access.arkansas.gov) to report their activities and exemptions

Provide free Wi-Fi access to guests who may have their own Internet-enabled devices

Distribute the Work Requirements 101 fact sheet to staff so they're aware of the work requirement basics.
